Absent: T. Austin, V. Bielat, V. Dallas, J. Ku, A. Retish.

Minutes from February were approved.

Final report was approved.

H. Shapiro shared some things he is considering in order to find out what CIC members felt about these ideas. The issue that was discussed the most was development of a university committee that would be in charge of approval of curricular changes that are currently approved by his office. While the idea of faculty involvement in this matter is important, the committee discussed several difficulties with this idea including the amount of work this might involve for a faculty committee.
