

Charges to FAC 2024-25

- Consider potential solutions for the WE course requirement (currently suspended for the second full year) in collaboration with CIC
- Review FIG plans for 2024-25, especially regarding potential for creating incentives for faculty to develop new FIGs in their fields
- Reconsider the emeritus status proposal and prepare a statement for Policy for early winter term consideration that might be voted on at a plenary before the end of the 2024-25 academic year, considering questions such as
 - a) Should emeritus status be automatic for faculty who have at least 10 (15?) years service to WSU?
 - b) Should the emeritus approval process require only the vote of faculty in the college and not chairs or deans acquiescence because of the potential for discrimination against outspoken faculty or favoritism for preferred faculty?
 - c) Should the Provost have a final say and if so, on what basis should emeritus status approved by the school/college faculty be deniable?
