

Charges to Standing Committees 2023-24

Elections:

- Suggestions of bylaws amendments for simplifying election procedures for Policy
- Suggestions of bylaws amendments to ensure there are people who can be considered elected by their peers when schools/colleges “appoint” replacements for people on leave or for people who resign (e.g., informing schools/colleges/divisions to appoint an alternate at each election as first runner-up who would be on tap to replace any of those elected if on leave (temporarily) or leave the Senate (through term))
- Consider an amendment to provide that an election committee member other than the Chair runs elections for Policy when the Election Chair is a candidate
- Consider any other election issues that should be undertaken and whether these would require statutory changes or bylaws changes (e.g., proportionality calculation for number of senators).
