

## **Charges to Standing Committees 2023-24**

### **Research:**

- Review of the process for Charters of Centers and Institutes and how that correlates with use of the term “center” to get a larger grant: i.e., at what point should such items as the “thematic initiatives” under OVPR be treated as centers/institutes that must be chartered
- Review the Research Misconduct proposal with the new General Counsel
- Consider the distribution of indirect costs: should there be a recommendation from the Senate for a change to give more of the funding back to schools/depts/PIs? (Perhaps this should be a joint meeting of Research, FSST and Budget)
- Consider recommending a process for expedited IRB decisions
- Consider any other unnecessary administrative hurdles within the scope of your committee that could be removed and whether these would require statutory changes? Dean or chair directives? Faculty activism? Etc.
