The meeting was called to order at 1:32 via ZOOM. Introductions of all members present were made.

We discussed the topics that we wanted to include for this academic year. Each of the chairs of the subcommittees will have about a one-page report to Naida by Friday, October 1. She will forward each report to the committee and the members of SAC will make comments. At the October 20th meeting, we will finalize our report to the Policy Committee. Each standing committee should have a report to the Policy Committee for discussion at the November 3rd plenary session. SAC agreed to tackle the other two priority issues of the suggestions suggested by the Policy Committee. Naida will contact the speakers and keep us informed.

We discussed making transferring credits an easier, seamless process. We also discussed combining recruitment of both undergraduate and graduate students as one of our topics. We will wait until the new, revised Student Code of Conduct is ready before adding this topic to our list. The Student Senate listserv issue was discussed. David S. pointed out that there is a process to use the listserv. The Office of General Counsel and C&IT have a say on what can and cannot be put on the listserv. Afifi will check and see if officers of the Student Senate will come to one of our meetings.

October 20—Discussion of the three areas of the Future of Higher Education: Students, Credentialing and Study Abroad

The meeting was adjourned at 3:15 pm.
